

# **Shabnam Shahabadi, M.D.**

## **Education**

**George Washington University School of Medicine**  
Washington, DC  
*M.D. Degree, May 2003.*

**George Washington University**  
Washington, DC  
*B.A. Summa Cum Laude in Religion, May 1999*

## **Postgraduate Training**

**Chief Resident in Dermatology** July 2006-June 2007  
Washington Hospital Center- Washington, DC.  
**Residency in Dermatology** July 2004-June 2006  
George Washington University-Washington, DC  
**Internship in Internal Medicine** July 2003-June 2004  
George Washington University- Washington, DC

## **Board Certification**

**American Board of Dermatology** August 2007  
*Fellow, American Academy of Dermatology, January 2008-present*

## **Medical Licenses**

**Commonwealth of Virginia.**  
**Maryland**  
**Commonwealth of Pennsylvania**

## **Professional Affiliations**

**American Academy of Dermatology**  
**International Society of Dermatology**  
**National Psoriasis Foundation**  
**Women's Dermatologic Society**

## **Academic Affiliations & Appointments**

**Thomas Jefferson University** August 2007-June 2008  
Department of Dermatology-Philadelphia, PA.  
*Assistant Clinical Professor*

## **Shabnam Shahabadi, M.D.**

### **Honors & Awards**

<b>National Society of Collegiate Scholars</b>	1995-1999
<b>Presidential Achievement Scholarship Award</b>	1995-1999
<b>Dean's List</b>	1995-1999
<b>Phi Beta Kappa Honor Society</b>	1999
<b>Cancer Research Training Award</b>	
<b>National Cancer Institute</b>	2002

### **Research Experience**

Summer 1996

**Alfred Singer, M.D. Experimental Immunology Branch, National Cancer Institute**

Research Assistant

Studied the cellular and molecular signaling events that drive differentiation of immature stem cells into functionally competent T-cells.

Summer 2000

**Jeffrey Schlom, M.D. Laboratory of Tumor Immunology and Biology, National Cancer Institute.**

Research Assistant

Studied the role of human immune response to tumor-associated antigens.

August 2002

**Steven Rosenberg, M.D. Surgery Branch, National Cancer Institute.**

Immunotherapy Fellow

Clinical research on the role of Interleukin-2 in the treatment of metastatic melanoma.

### **Presentations**

**“Lasers in Dermatology”** Basic Science Lecture Series  
Washington Hospital Center, August 2006.

**“Lipids, Sebaceous Glands and Adipose Tissue”** Basic Science  
Lecture Series Walter Reed Medical Center, November 2005.

**“Lupus Panniculitis”** DC Dermatologic Society, January 2005.

## **Shabnam Shahabadi, M.D**

**“Pityriasis Rubra Pilaris”** DC Dermatologic Society, January 2005.

**“Cellular Adhesion Molecules”** Basic Science Lecture Series  
Walter Reed Medical Center, August 2004.

**“Immunology of Ultraviolet-induced Skin Inflammation”**  
presented at Surgery Branch, National Cancer Institute.  
August 2002.

### **Publications**

**Kachemoune A, Shahabadi S, Kauffman L. Man with numerous facial papules.**

*Journal of the American Academy of Dermatology.* 49: 163-64, July 2003.

**Shahabadi S, Gayer K, McGrane O. What caused these gland and skin changes?**

*Skin and Aging.* 14(8): 66-70. August 2006.

**Kachemoune A, Shahabadi S. What kind of ear piercing is this?**

*Skin and Aging.* 12(4): 86-88, April 2004.

**Kachemoune A, Shahabadi S, Kupiec A, Kauffman L. What are these whitish papule?**

*Skin and Aging.* 11(6): 76-78, June 2003.
